A Clearer Route to Career Growth

Career exploration and workforce learning, connected in one product

DOMAIN 1

The Aiversecity Future-Ready Workforce Domain

Meet Faraway

An AI-assisted career and reskilling platform for Malaysia’s learners and organisations

01

Understand skills

Review the starting point.

02

Explore roles

Compare fit and skill gaps.

03

Plan learning

Choose a practical next step.

Which skills should I build next?

Explore future roles

Understand Skill Gaps

Choose what to learn next

Individuals

Unclear career options and the gaps to close

Organisations

Training choices without a clear reskilling pathway

DOMAIN CHALLENGE

Connect changing AI and job signals to suitable roles, reskilling and SDG relevance.

Who is Faraway for?

PERSONAL JOURNEY

A career decision

Working adults

Graduates and career switchers

Choose a role and the skills to build.

ORGANISATION JOURNEY

A learning decision

HR and L&D managers

TVET and university career centres

Plan learning for a workforce or cohort.

Let's explore Faraway

Two workspaces. A clear route from skills to learning.

01

Personal

Profile, skills, career fit and a plan

02

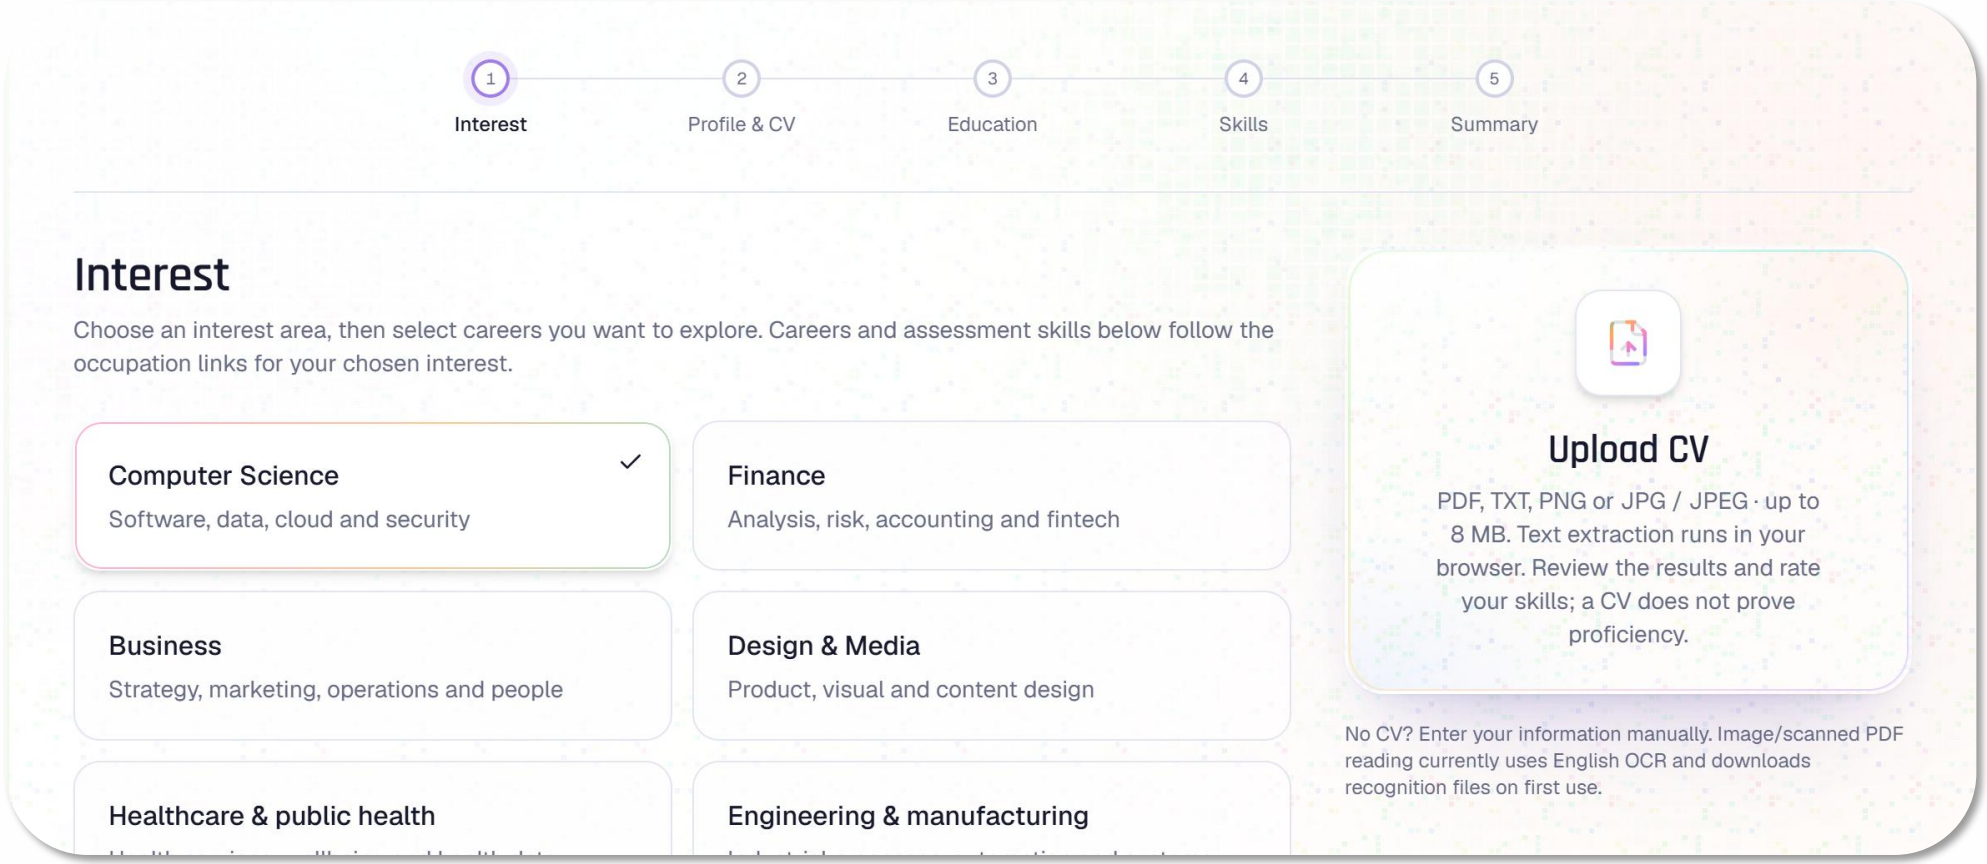

Organisation

People, shared gaps and progress

How SDG Affect Decision

Job-related SDGs

SDG EXPLANATION

This job's SDGs

- 8 Decent Work & Economic Growth
- 9 Industry, Innovation & Infrastructure
- 4 Quality Education

SDG 8

8 Decent Work & Economic Growth

Data Analyst: work with a purpose.

Creates productive, decent jobs and keeps Malaysian firms competitive as AI reshapes work.

Target 8.5 · Decent work and equal pay

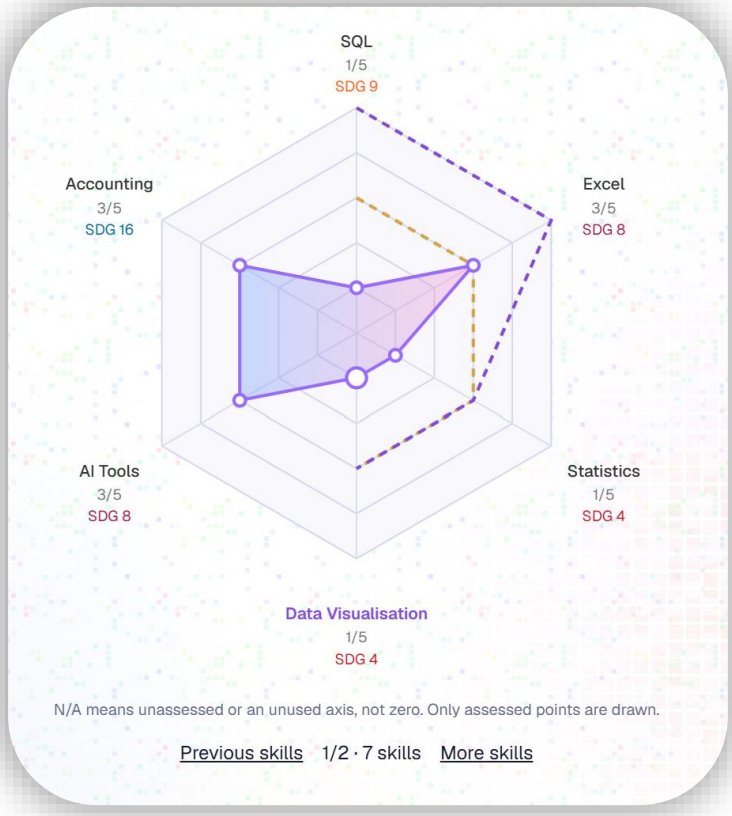

Support productive employment, decent work and equal pay for work of equal value.

UN target reference ↗

Faraway's suggested link · potential contribution, not measured achievement

Imagine putting Data Analyst to work where it matters. Choose one challenge in your community, create a practical solution and listen to the people whose lives it could improve.

Skill-related SDGs

SDG EXPLANATION

Each skill's SDG

SQL	9
Excel	8
Statistics	4
Data Visualisation	4
AI Tools	8
Accounting	16
Financial Modelling	8

SDG 9

9 Industry, Innovation & Infrastructure

SQL: turn practice into possibility.

Powers the digital infrastructure and innovation that new industries are built on.

Target 9.1 · Reliable and inclusive infrastructure

Develop resilient infrastructure with fair access.

Learning Progress

The organisation journey begins here

1

Choose a team

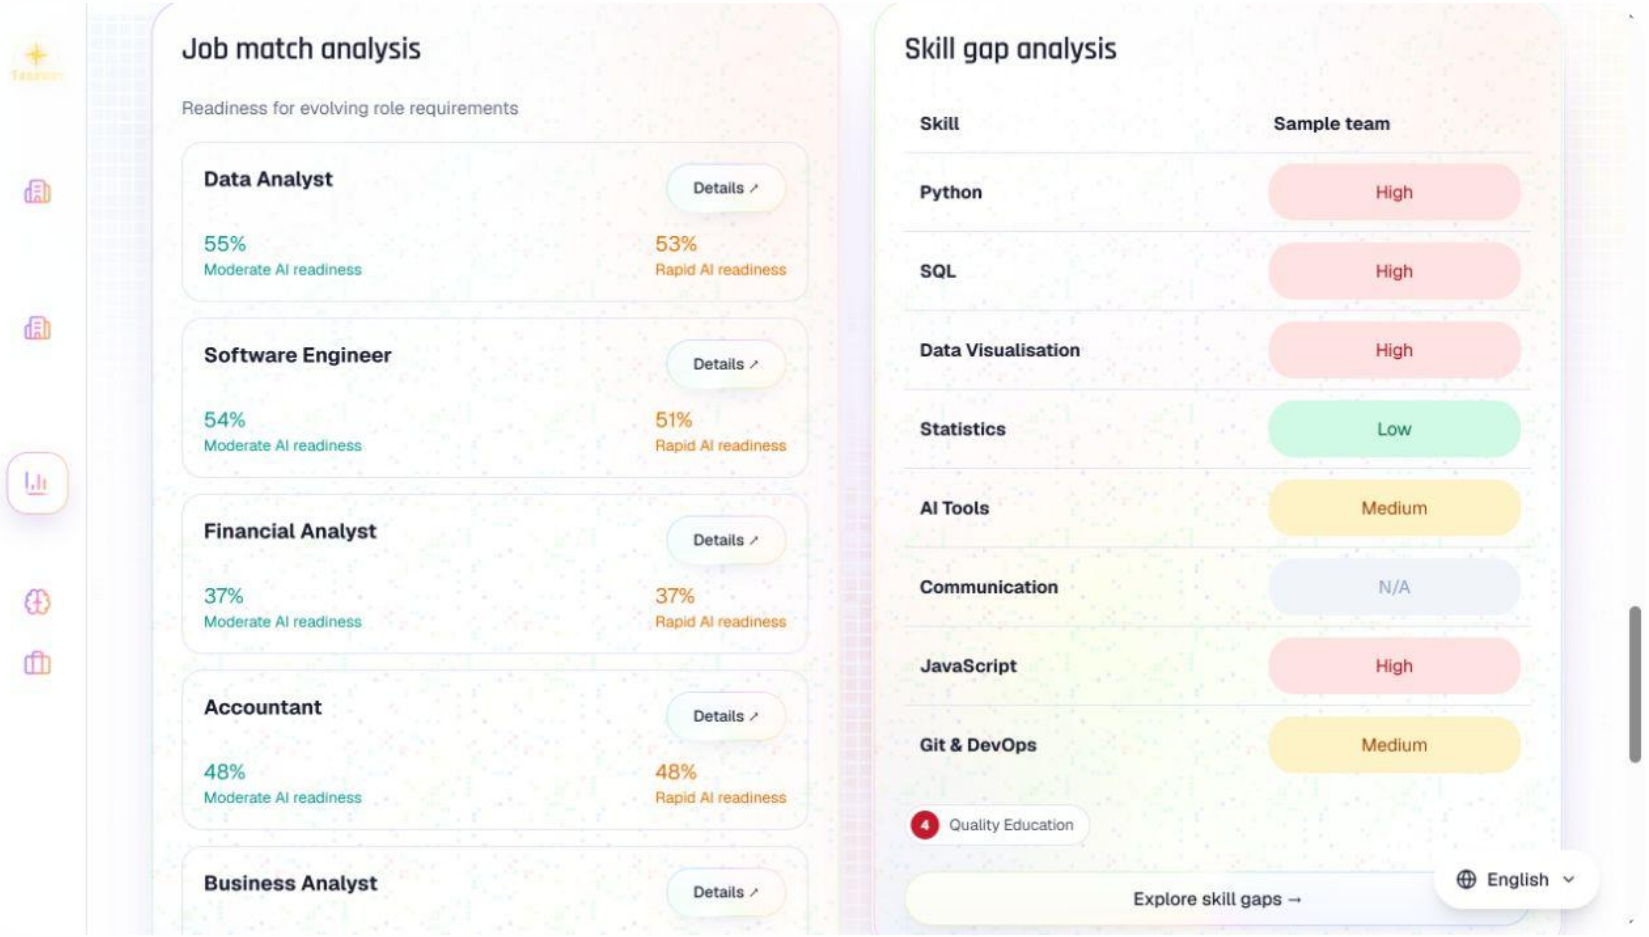

Set the scope for analysis.

2

Review people

Import a CSV or add records.

The team picture

Readiness

Compare selected role benchmarks.

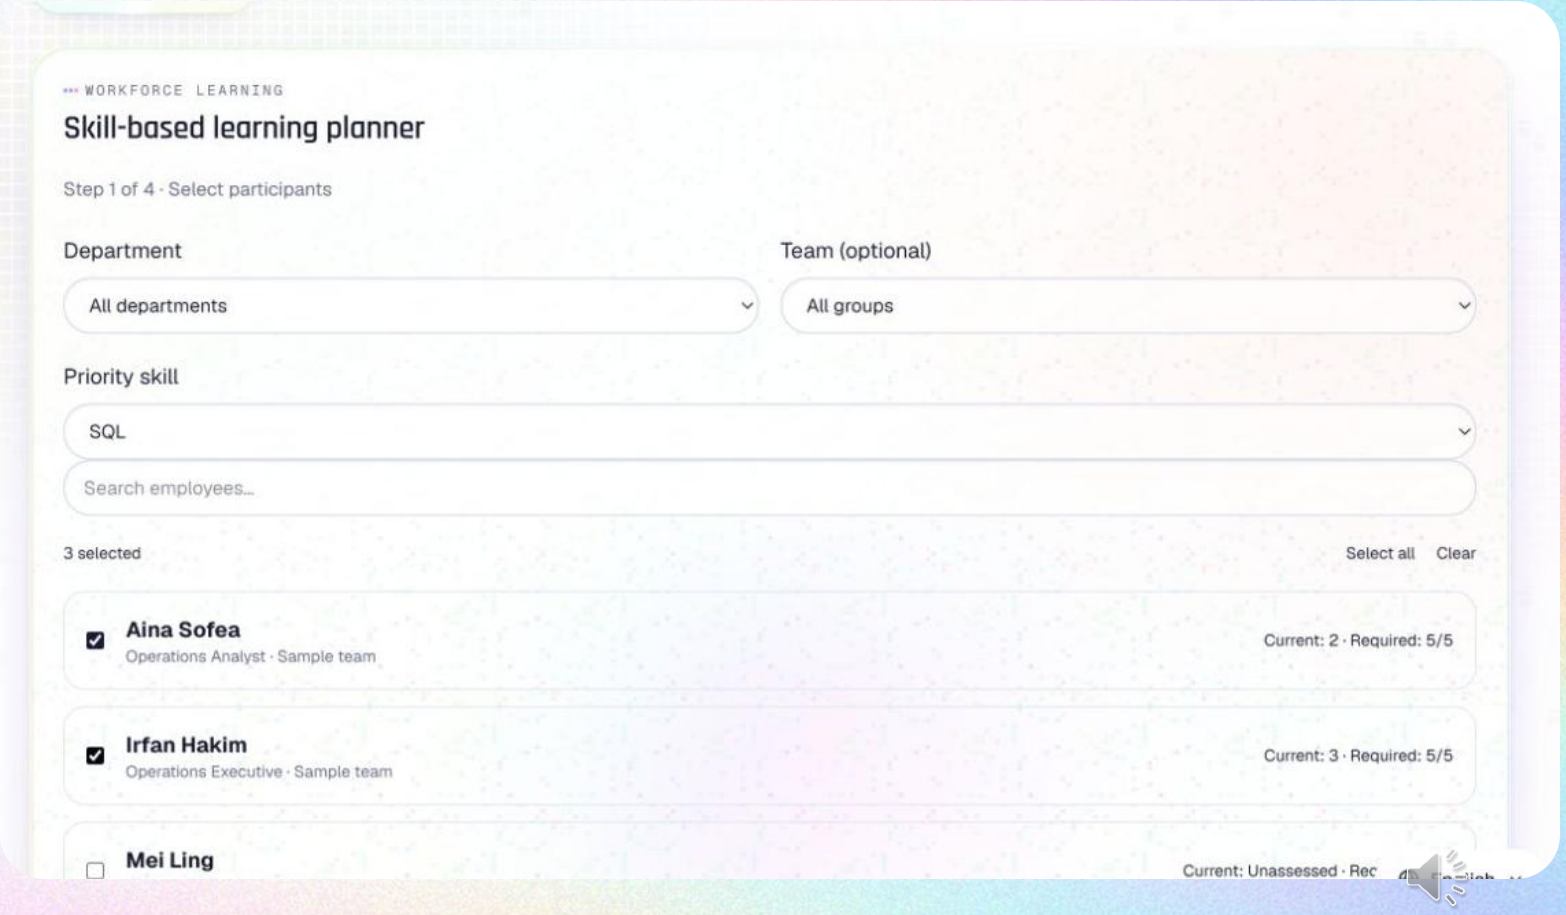

Shared gaps

Investigate the skill and people behind it.

A focused learning plan

Skill-based plan

Start with a shared skill gap.
Select the people who needed it.

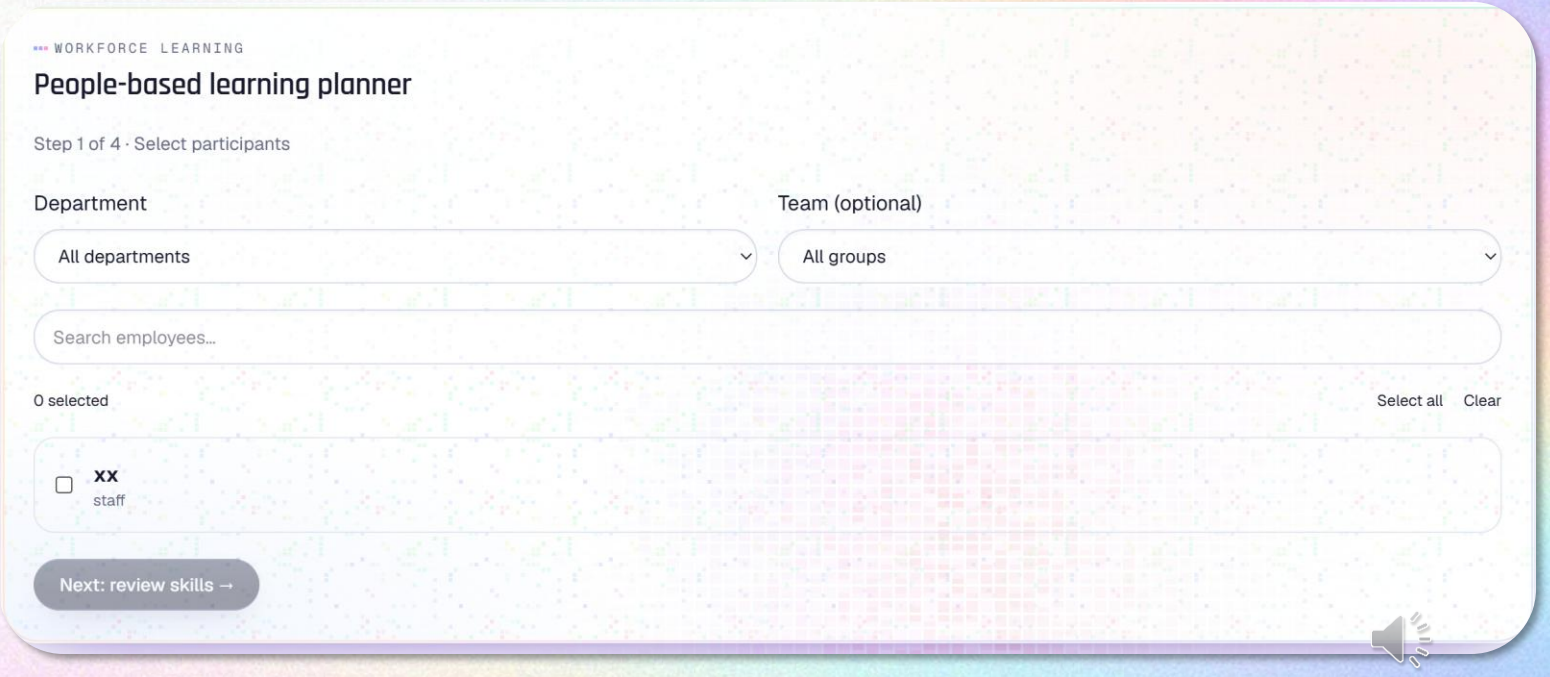

A focused learning plan

Skill-based plan

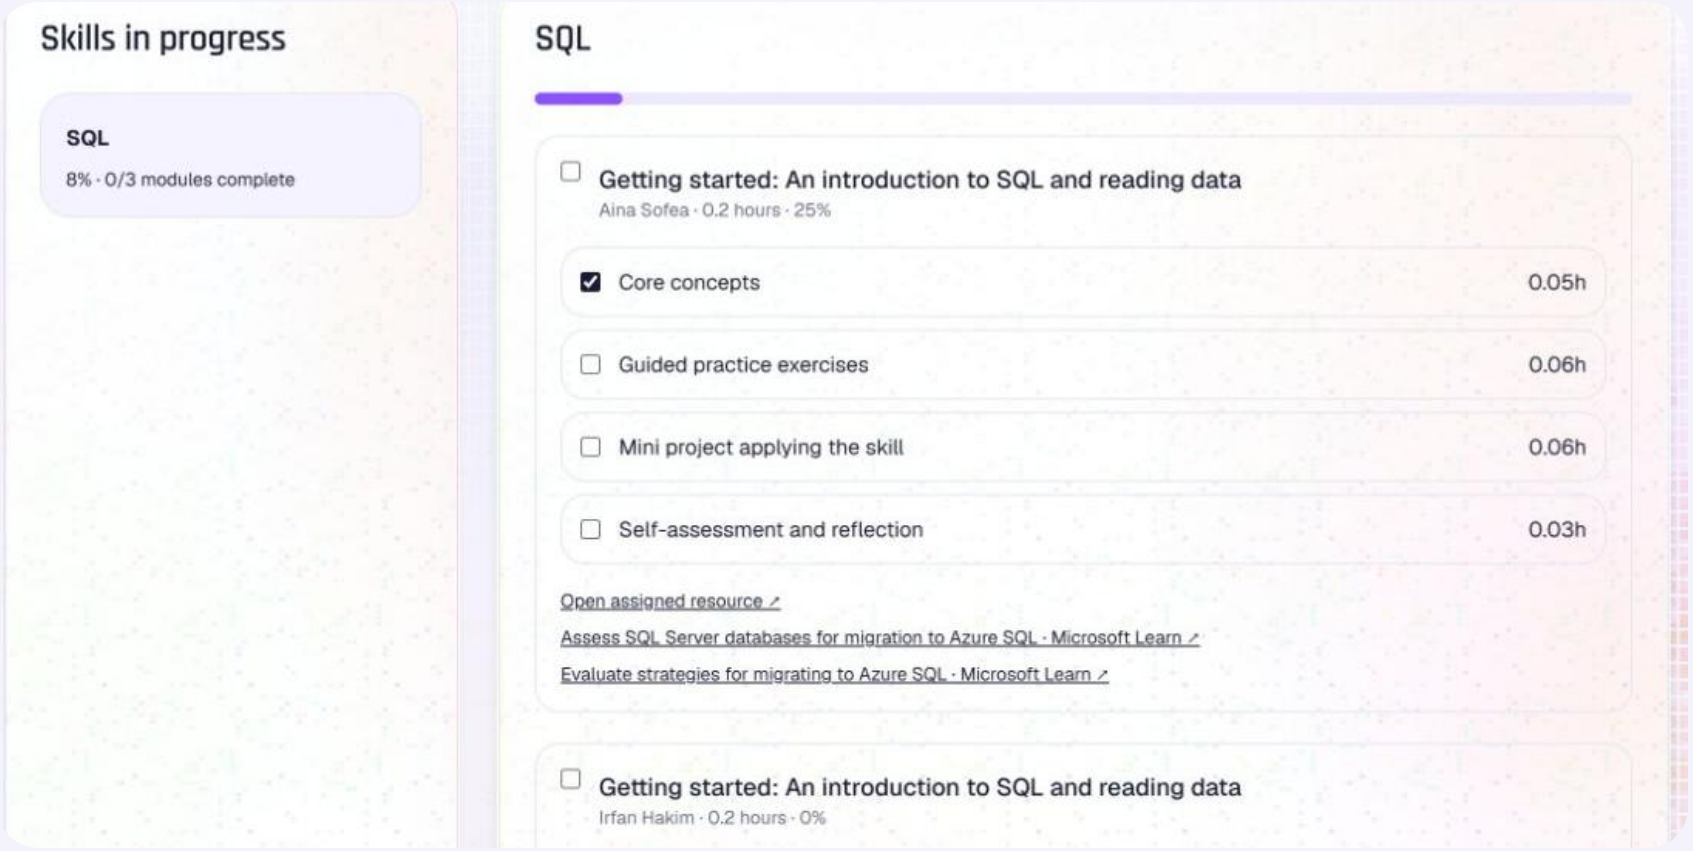

Start with a shared skill gap.
Select the people who needed it.

People-based plan

Select employees first.
Tailor learning to their needs.

From a plan to visible progress

25%

Aina’s sample module progress

Tick a completed activity.
The module progress updates.

Completion records activity. Reassessment establishes skill improvement.

More accessible. More accountable.

Multilingual experience

English
Bahasa Melayu
Simplified Chinese

Use the language selector to change the interface and request AI guidance in your chosen language.

Recommendation fairness check

Same skills, interests and experience. Different synthetic identity labels.

The check compares rankings and scores after changing names, age, gender and background labels.

Evidence & sources: Run fairness check

A targeted scoring check, not a guarantee of demographic fairness. Dataset and AI language reviews remain necessary.

IMPLEMENTED IN SOURCE / AI RESPONSES REQUIRE THE CONFIGURED SERVICE

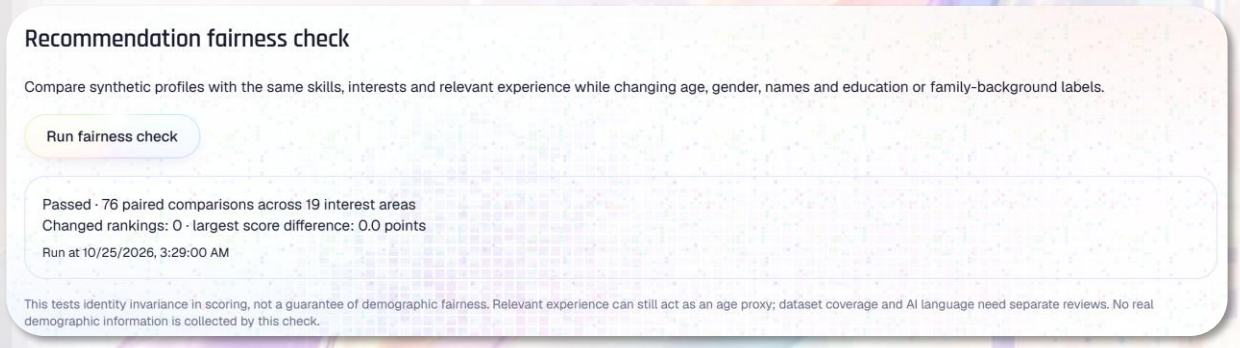

More accessible. More accountable.
